

# Homophones Answer Key

This worksheet reviews the homophones: its/it's, there/their/they're, here/hear, and (to a lesser extent) pair/pear, weak/week, and two/too/to.

Students are to underline the right choices in each sentence.

1. There/Their/They're trying to catch the chicken, but its/it's to/too/two fast for them.
2. The squirrel grabbed its/it's nuts and ran over their/there/they're.
3. Can you hear/here me with that pair/pear of earplugs in?
4. Their/There/They're to/too/two cousins are coming hear/here next weak/week.
5. Its/It's hard to know whether to stay hear/here or go their/there/they're.
