

RAY'S RULES

Protons have a + charge

electrons have a - charge

neutrons have no charge

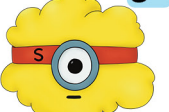

POPPI'S PUZZLES

Write the formula and name for each ionic compound formed when you combine the cation with the anion shown.

Example

Baby Lili

Sulfur

Charges	
+1	-2
+1	
+2	-2

Baby Lili

Sulfur

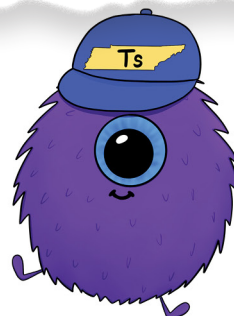

= 0

TELL ME MORE!

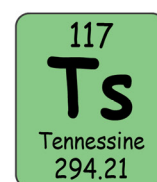

Hi! I'm Tell-Me-More-Tennessee....or
Tenny for short. I'm here to tell you more
about all the behind-the-scenes stuff
mentioned in this case.

Charges	

= 0
